

PROFILE

Frontend Engineer with 3+ years of hands-on experience in building responsive, scalable, and performant web applications using Angular, React, and Next.js. Proven ability to lead teams, mentor developers, and deliver business-critical features with a strong focus on user experience and code quality.

WORK EXPERIENCE

FRONTEND DEVELOPER

Soft Brigade - Lahore

Dec 2021 - Mar 2023

- Developed and maintained a fully functional Job Application Portal using Angular, focusing on responsive UI, performance optimization, and user-friendly workflows with state management using RxJs.
- Collaborated closely with backend developers and designers to integrate APIs and deliver seamless user experiences.
- Transitioned to React for a second Job Portal project, building the frontend from scratch with modern React practices, including hooks and functional components.
- Implemented reusable UI components to ensure maintainability and scalability.
- Ensured cross-browser compatibility and responsiveness across mobile, tablet, and desktop platforms using MUI.

FRONTEND ENGINEER

Technomites - Karachi

April 2023 - Present

As a Senior Frontend Engineer, I was responsible for driving the development of scalable and high-performance web applications across multiple projects. My role emphasized architectural planning, performance optimization, and mentoring junior developers.

- Designed and implemented complex UI components and application workflows using modern frontend frameworks such as **Angular / React / Next.js**, ensuring code quality, performance, and responsiveness.
- Led frontend architecture decisions for best practices in component design and state management.
- Integrated RESTful APIs, ensuring efficient data handling and seamless user experiences.
- Led a team of frontend developers, assigning tasks, overseeing progress, and providing guidance throughout the development lifecycle.
